

Overwintering onion sets and garlic are doing well

All shallots now planted, four lots

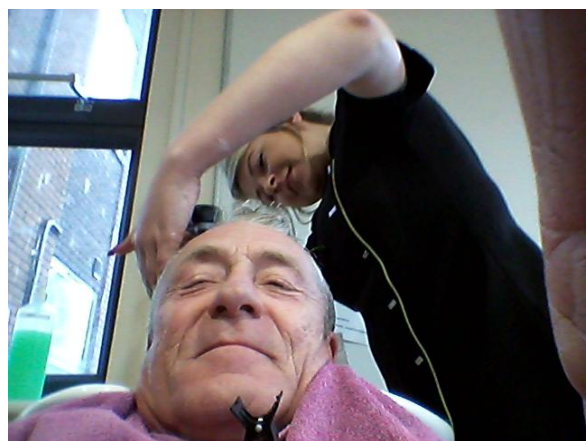

This will upset my electric meter - the loft light turned off, all produce to greenhouse

Greenhouse is chok a block

Had a free hair wash at the college - nice one Emma...one of my ex-school gardening club kids!

Last of my shallots going out

Empty pot taken out, mycorrhizal fungi put in hole ready to take shallot

They have thick white roots now

These lot get a bucket and a half of tepid rain water

All finished

Planting out and firming

Taped in!

Toms sown...normal toms – Zenith. Cherry toms - Apero, Nimrod and Tasty No

Caslon School kids - putting leaf mold to raised beds...the kids did their own faces!
